Year 9 Options 2025

- GCSEs/Level 2 qualifications
- Core subjects (examined)
- Core subjects (non-examined)
- GCSEs NEVER lead to a direct career as such- need to specialise for this to happen.
- **GENERAL** CERTIFICATE of SECONDARY EDUCATION.
- GCSEs are the entry route to the next stage of education.
- Grades are more important than the subject (but MUST pass core subjects)
- Colleges/6th Form Schools insist on a certain number of grades in a certain number of subjects
- KEY is to ensure entry onto the next level after GCSE e.g. A' Level/Level 3

Key message

- Choose your GCSE/Level 2 subjects carefully
- Higher grade is MORE IMPORTANT than the subject
- There is a DIRECT link between HIGHER GRADES and how much you earn.
- There is little DIRECT link between the GCSE SUBJECT and how much you earn.

DO:

- Choose courses you are interested in and that you enjoy
- Choose a range of different courses, so that you have a broad base from which to choose your post-16 courses
- Read the subject information. Ask the advice of your subject teachers, your tutor and our careers advisers and discuss it with your parents
- THINK VERY CAREFULLY about the subjects you choose. It is very difficult indeed to change course once you have started.

DO NOT:

- Choose a course simply because your friends have
- Allow either a like or a dislike of particular teachers to influence your choice
- Make your decision hastily
- Drop any subject you may want to study after Year 11
